

FOREIGN REPORTS ARE FAVORABLE

NO OLD WHEAT LEFT; NEW CROP DETERMINES PRICES

PORTLAND, July 11.—From on new crop wheat will be the dominant factor in the wheat trade here, for it is said no old wheat is being offered. What little old wheat may be on hand will not figure in the transactions that may have any bearing on the general market. Little business is being done in new crop wheat and quotations are about the same as for the past ten days. While wheat declined at Chicago today reports of more encouraging nature came from Broomfield, giving the situation at Liverpool, under date of July 10, as follows:

"Wheat—The late rally in America yesterday caused shorts to cover at the opening here. Later, further support, with the undertone firm. Firmness in spot less favorable. Appreciation of rust damage in the American spring wheat caused yesterday's sellers to turn buyers with offers light. Corn firm and higher on American firmness and unfavorable American weather reports. Later some little pressure in July, which declined 1-4, but this decline was recovered with the continued firmness in September, which advanced a further 3-8 after the opening. Unfavorable weather in Argentina, firmer Platte offers and scarcity of spot, stimulated shorts in September to cover freely. Argentine raised heavily yesterday and now indications are for clearing. Further complaints are received of unsatisfactory conditions of arrivals, both at United Kingdom and continental ports. Platte holders are very firm with much difficulty in filling immediate contracts."

John Inglis wires from Aberdeen, "Southern Cass, eastern Random counties all crops poor, drowned out. On rolling land wheat in promising velvet chaff in milk, heavy black rust prevalent; bluestem not advanced enough to be attacked. Situation critical. Will show next week if attack is virulent. Hot weather, but no hot winds."

S. Logan says: "The weather in the corn belt is generally clear and indications are for a hot spell. The market has had a stiff advance, but I look for higher prices today." Kansas City wires very hot all over southwest Oklahoma and part of southern Kansas says corn is in very bad shape.

Indians Koen Politicians, PIERRE, S. D., July 10.—The great question of whether the American Indian will ever take his place in politics and become an active factor in local and state government is being answered satisfactorily in several parts of South Dakota. The poor, whiskey-soaked, brain-in-the-face of earlier days is rapidly changing into a keen and crafty politician.

Reports received in the past week from Emmett and Mellette counties indicate that the craftiness of the Indian has been pitted successfully against all of the whites and a score or more of important county offices are now held by Indians. These officeholders are Indians of intelligence and education. As a further indication of the trend of the "huns," the secretary of state recently christened the "Indian Political Association" to be conducted political affairs in that region on a solid basis. The organization is incorporated by Isaac Bear Looks behind Edward Casaway in the Fort, Benjamin Hungry, James Bear Thunder and Henry Swift, etc.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is swollen, and it is entirely closed. Deafness is the result, and unless the inflammation is removed, and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
